

Hi my name is Ryan Miller and I am nominating to continue as a Board Member for SPBA. I have thoroughly enjoyed the opportunity I have had over the last two years, representing the local community and being part of a collaborative, forward thinking team. Over the last two years a few of my highlights have been:

- Re-establishing our Domestic Competition (post Covid). This season, the competition has grown by a further 30+ teams and offers opportunities for all levels of players.
- Listening to and responding to community feedback – ensuring the competitions, policies and regulations are inline with our communities needs.
- Developing pathways (both Representative and alternative) that give all participants an opportunity to get the most out of their basketball experience.
- Working with fellow Board members and the SPBA Admin team to deliver a product that our community can be proud of.

I have played basketball at SPBA for 30+ years and over that time have had the opportunity to play and coach at both domestic and representative level, and this year look forward to coaching the U12 Girls Sharks. I continue to enjoy playing myself and coach my three daughters at domestic level as well.

I am also a teacher at Dromana College and love the connection between the school and a lot of our players and families at SPBA.

I would love the opportunity to continue to represent our community on the SPBA Board. I pride myself on seeking feedback from the community – trying to understand how we can continue to improve our product and always work hard with fellow board members to action this information.

Thanks for your consideration,

Ryan Miller
